

NEW LAW MENACE

Adamson 8-Hour a Menace to Labor, Says T. R.

Roosevelt Admits Strong Belief in Favor of Unions.

Wilkesbarre, Pa., Oct. 16.—Inspired by the recollection of his part in settling the great coal strike of 1912, Wilkesbarre, center of the anthracite coal fields, Saturday night gave Theodore Roosevelt a warm reception. From the moment he reached the city until the opening of a mass meeting in the city hall, he was besieged by a throng of miners who lined the streets, over which he passed, and that flowed in a steady stream into the big building where he spoke.

An hour before the scheduled opening the army was packed, with several thousand standing. The address before a large audience of miners was in response to an invitation to discuss the Adamson eight-hour law. Roosevelt declared that the law was passed under duress, without investigation as to the merits of the case, and that such legislation was a menace to the laboring men of the nation.

High Wages and Justice. He asserted that President Wilson failed to fulfill the obligation of his position in allowing any one class of men to force congress to pass a law for its benefit. The Adamson bill, he declared, did not limit hours of labor, but only increased wages.

Mr. Roosevelt said he was a strong

believer in union labor and that he wished to see laboring men get just as high wages as possible without working an injustice on their employers.

In connection with his discussion of the eight-hour law he reviewed the anthracite coal strike which occurred during his administration. He declared that he was wrong in forcing congress to pass the Adamson bill and that Wilson proposed to have a law passed which would prevent any future president from making a similar mistake.

AMERICAN BOYS WIN

U. S. Athletics Capture Three Events at Stockholm Contests.

Stockholm, Oct. 16.—The performance of American athletes sent here after the A. U. games to take part in contests in Scandinavian countries, aroused much favorable comment here today. The performance of the American boys was excellent, considering the length of the trip they made and the lack of preparation.

Three races—the 100 meters, the 400 meters and the 800 meters relay—went to the Americans Saturday. Ted Meredith finished first in the 400 meters, defeating J. Bolin, holder of the 800 meters record in Sweden. His time was 47.10 seconds.

Americans took first in the 100 meter event, Joe Loomis leading the field. Andy Ward, Chicago, was second and Robert Simpson, University of Missouri, third. The American relay team was composed of Loomis, Simpson, Ward and Fred S. Murray, California hurdler.

BATTERY A HOME?

Belief That Topeka's Crack Artillery Will Come Soon.

Start for Kansas Shortly After Target Practice.

Indications point today to an early return, probably inside of thirty days, of Battery A, the Topeka unit of light field artillery, from the Mexican border. Reports received from the border are to the effect that men and officers believe the unit will start home shortly after the completion of target practice this week.

The battery is stationed near Eagle Pass, Texas. For several days it has been engaged in target practice on a range about seven miles from that place. Other training, to which artillery units already sent home, were subjected, is finished.

When asked for his opinion of the rumors today, Lieut. W. P. McLean, an officer in the battery who is home on a furlough, stated he has not official advice as to when the artillery will return. "It is my personal opinion," said Lieutenant McLean, "that the battery will be ordered home soon. They finish target practice near Eagle Pass this week, I understand, and it would surprise me if they came home in thirty days, or if they received orders to come home by the time my furlough expires, which is November 2. The only thing I know of that would keep them any length of time, after completion of target practice, is the fact that they are attached to the Third field artillery, a regular army unit. That organization, I understand, expects to be on the border all winter and the Topeka unit just fills it out. Whether or not they would want to take the unit away from the Third is something I could not say.

"Personally speaking, it wouldn't surprise me if orders to entrain for home were issued to the battery about November 1. No, we have had no official information to that effect."

Another indication that the unit will return soon is the fact that it was one of the first artillery units of the national guard to arrive on the border when the guardsmen were federalized last June and July. Battery A left Fort Riley July 4. Several artillery units that went about the same time from other states have already been returned home and replaced by other units.

In speaking of the showing which the battery is making on the border, Lieutenant McLean said today its record is excellent. Captain Michell, inspector-instructor for the battery and the captain of Battery C, Third United States field artillery, paid to the battery recently a fine tribute.

"They are the most enthusiastic bunch of men on the border," he said. "All they need to stand alongside the regulars is the experience."

The battery is made up of Topekans exclusively.

REVENGE FOR COMRADE

American Flyer Honored by France for Felling 5 German Planes.

Paris, Oct. 16.—Sergeant Raoul Lufbery of New Haven, Conn., the first American to be mentioned in a communique for bringing down five hostile aeroplanes is known as the American who thought himself a Frenchman.

Lufbery's parents died when he was very young and he was brought up by a family at Housatonic. At the age of 13, he ran away from home and wandered all over the world, turning his hand to all sorts of trades. At Saigon he met with Aviator Marc Pourpe, who trained him as his assistant.

The first that Lufbery discovered was that he was an American was on the outbreak of the war, when he went to enlist with Pourpe. He was rejected on account of his nationality but after many appeals was allowed to go with Pourpe as his mechanic. Pourpe was killed soon after Lufbery and Lufbery swore to avenge his death. He finally was permitted to train as a pilot. He obtained his flying certificate last year and was transferred to the American flying corps when it was formed.

He brought down all of the five German machines required for mention in the communique since July 30. The first three were brought down within three days.

SNOWSTORM IN MICH.

Three Inches of White Covers Michigan Early Today.

Calumet, Mich., Oct. 16.—Three inches of snow fell here and in the surrounding country during the night and early today. A strong wind almost gave Calumet a blizzard. While the snow storm was at its height all shipping was forced to seek shelter and Lake Superior was deserted by boats. It was the heaviest snow storm in ten years. An hour after the snow storm started, sleighs were pulled out of the barns and put in use.

HUGHES MONEY TIMID

Wilson Backers Unable to Place Bets in New York.

New York, Oct. 16.—Apparently there are very few Hughes supporters in town who are willing to risk their money by laying odds on their favorite's chances. At 7 o'clock Saturday large quantities of Wilson money appeared in Wall street, and other betting centers. The Wilson men sought to bet it at 10 to 1, taking the rail end, but they found no one willing to lay those odds.

A wealthy Ohio Democrat also appeared with \$25,000 which he tried to lay against \$35,000 that Wilson would carry Ohio. He found no takers.

LOVE CAUSES SUICIDE

Kentuckian Kills Sister-in-Law and Self Following Thwarted Elopement.

Mayfield, Ky., Oct. 16.—Tired of life because they could not marry, Charlie Brown and Elma Cope died together. After a two weeks search their bodies were found lying side by side in the woods near here. Three bullet holes pierced the girl's body. One bullet had ploughed its way into Brown's heart.

Several weeks ago the couple eloped, but were arrested by the sheriff and returned here. Brown had a wife and two children. Elma Cope was a sister of Brown's wife.

WILL NOT SHOVE THANKSGIVING DAY AHEAD ONE WEEK

Long Branch, N. J., Oct. 16.—Thanksgiving Day will be on the last Thursday in November, as usual, which means that it will fall on the last day of next month. Suggestions have been made that in view of the fact that the feast day is coming so close to Christmas this year, President Wilson should designate November 23 as the official date. It was learned today, however, that the president will name November 30 as the date in his proclamation.

TROT FOR HUGHES

Junction City Progressive Leader is Back in Field.

Senator Lorin Trot of Junction City, Progressive candidate for congress in 1914, is out in the open for Charles M. Harger of Abilene for congress. Senator Trot has urged his friends to support the Republican congressional nominee and conditions at this time point to a united Progressive support for Harger in the November election.

In 1912 Senator Trot lined up with the Roosevelt followers following the Chicago convention. When the third party was organized, he was one of the strong men of the party in the Fifth district. In the state senate, he worked with Progressive members of the legislature. Two years ago he made the race for congress in the Fifth district as the nominee of the Progressive party.

Returns from the election of two years ago show that Senator Trot polled a total of 7,983 votes in the district, while Congressman Guy T. Helvering, Democrat, received 25,145 votes and W. A. Calderhead, Republican, polled 22,755 votes. Based on returns of two years ago, Harger will this year need about 70 per cent of the Progressive vote as well as the Calderhead vote of two years ago in order to defeat Helvering. Senator Trot believes Harger will receive a much larger per cent. In fact, Senator Trot is now urging all former Progressives to swing in behind Harger in their support of Hughes for president. Conditions in the district at this time, Senator Trot believes, indicate an almost solid Progressive support for Harger.

"I am out in the open for Harger for congress in the Fifth district and have urged my friends in all parts of the district to support him," said Senator Trot. "My support of Mr. Harger in the campaign will be most loyal and unstinted. In my judgment Fifth district Progressives will endorse his candidacy almost unanimously. It is the only consistent course for them to pursue. They expect to support Charles E. Hughes for president. How foolish it would be for them to tie the president's hands in the campaign by congress that would seek to block the adoption of his policies."

"In my judgment Harger is ably equipped to represent the district in congress and will give excellent service. He will represent both Kansas and the people of the district and should have united support in his campaign. I don't think there is a question of doubt about his success, but I shall do all in my power to assure the former Progressives of the district to give him their support."

A BIG-HEARTED BURG

Rochester, N. Y., Most Liberal City in United States—Boston Tightest.

New York, Oct. 16.—The most generous city in United States is Rochester, N. Y. Next in order at the head of the honor list comes the Democrat city of Hartford, Conn., followed by Reading, Pa., Detroit and Pittsburgh, Utica, N. Y., Albany, Lowell, Mass., Richmond, Va. and Birmingham, N. Y., follow closely.

And the hardest to extract money from are Boston, New York, Philadelphia, Chicago, Minneapolis, San Francisco and St. Louis.

According to the latest compilation there are three and one-half times as many charitable organizations appealing to the generosity of the public than there were a year ago. War relief organizations help to swell the list constantly.

There is more money given for church support annually than for any other single purpose. Last year the United States gave \$20,000,000 to its churches. This year the sum is expected to exceed the billion mark.

WON'T JOIN ARMY

Gutierrez Independent of Both Factions in Mexico.

Capturer of Juarez Robbers Friendly to Americans.

Field Headquarters Punitive Expedition in Mexico, Oct. 16.—The report has been received at headquarters that the four Mexicans who robbed the Taylor Brothers' store in Colonia, Juarez, last Thursday night had been captured and slain. Tales of the killing of the robbers have not reached General Pershing. It is known, however, that the capture was effected by a Mexican named Gutierrez, a strange product of Mexico's revolutionary era. Gutierrez has about 100 followers and refuses alliance with either the Carranzistas or Villistas, styling himself an "independent." His men are not bandits in the sense that Villa's are. He has shown himself to be on friendly terms with General Pershing's men.

It is understood that Gutierrez has recovered most of the loot taken by the robbers from the Taylors and has returned it.

Troops in Fine Condition.

Reports current on the border that a regiment of American cavalry had occupied Namiagua were denied at headquarters here. A scouting expedition was sent from El Valle towards Las Cruces, but it did not approach within thirty-five miles of Namiagua. The Carranza garrisons at Casas Grandes and Peterson under Colonel Cortinas have been ordered to El Valle. They are already on the march. It is believed here that the ultimate destination of these Mexican troops is Namiagua.

Seven months ago Sunday General Pershing sent an expedition across the border into Mexico. Hard field service in those months has so increased the efficiency of the entire command that it is now without doubt the crack division of the regular army. Except for pitched battles it has undergone all tests of actual warfare emerging with an efficiency record worthy of the army's best traditions.

OLLIE IS ENTHUSIASTIC

Ky. Senator Says Wilson is Sure Winner—West Wild for Him.

Asbury Park, N. J., Oct. 16.—President Wilson is pleased and encouraged over his campaign over the middle west states, which indicates his chance of election is increasing. The entire Senator Ollie James, who has been speaking in the middle west, telegraphed from Columbus, O., as follows:

"I have been speaking thru the west. Never saw anything like the tide to Wilson. He is a certain winner. I believe Ohio will give him 100,000 majority. Kansas, Iowa, Nebraska, Illinois and Indiana are on fire with Wilson enthusiasm. Hughes is licked. Wilson is a certainty."

Mr. Wilson began a busy week today by receiving at Shadow Lawn the Wilson volunteers. Wednesday morning he will leave for Chicago where he is scheduled to make several speeches on October 21.

Saturday evening a large birthday cake was the chief decoration on the dinner table at Shadow Lawn. It was Mrs. Wilson's birthday anniversary. The president's gift was a handsome brooch of diamonds set in platinum, which he purchased in Asbury Park on Saturday. Mrs. Wilson received a number of congratulatory telegrams. Only members of the immediate family attended the birthday party.

"BAG" 74 AEROPLANES

53 British and 21 French Craft Shot Down by Germans in Month.

Berlin, Oct. 16.—By wireless to Sayville—Seventy-four hostile aeroplanes of which twenty-one were French and fifty-three were British were shot down by the Germans during the month of September, according to an exact list compiled by the German military authorities.

"This publication," adds the statement, "is illustrative of the worth of the declaration recently made by Premier Asquith in the house of commons that the British aeroplanes had gained complete domination of the air. The entente powers never give precise, detailed reports regarding the successes they claim in aerial warfare."

Varsity 600 New Overcoat Styles

Made by Hart Schaffner & Marx in their own inimitable manner, either full lined or lined with silk. The smooth or rough fabrics—look well on every one—

Henry M. Laing

of RUSSELL—Republican Candidate for State Senator, 34th District

Has served as Member of House of Representatives in the last three sessions of the legislature. A member of Ways and Means Committee in two sessions.

Member of joint committee to adjust differences arising between House and Senate relative to appropriations.

Has served several years as a member of the State Board of Agriculture.

Is in favor of liberal appropriations for state institutions, but under economical and practical supervision.

The same careful conscientious service to people of the 34th District and the State, will be rendered if he is elected to the senate.
